SUBJECT:

MODELS:

ENGINE OIL CAPACITY

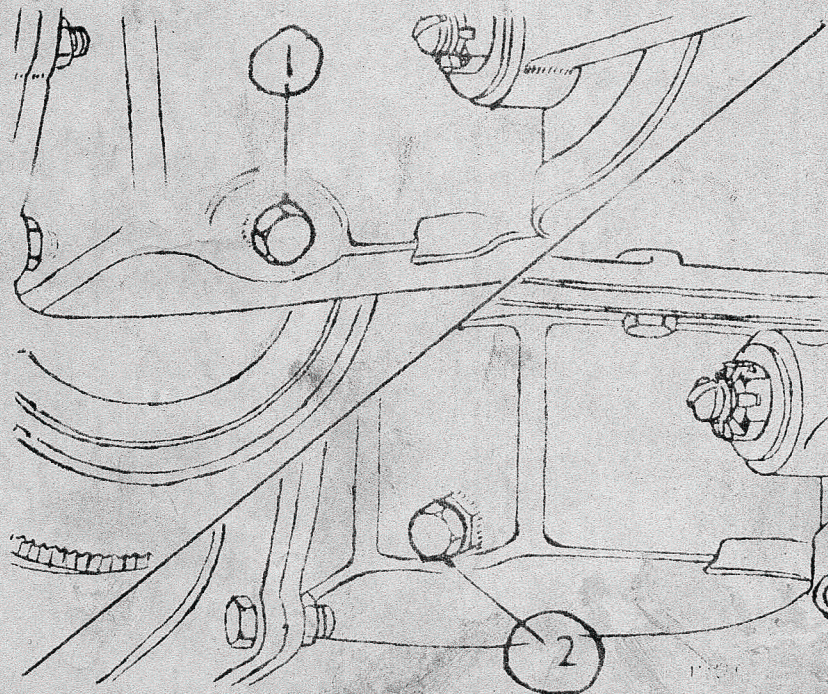

MGB

During the latter part of 1971, A MODIFIED ENGINE SUMP WAS fitted which reduced the engine oil capacity on this model by approximately 1 1/2 U.S. pints. In order to clear UP ANY misunderstanding, the following capacities are applicable:

CAPACITIES

	<u>Early Type Sump</u>		<u>Modified Sump</u>
Engine:	8.5 U.S. Pints	Engine:	6.9 U.S. Pints
Oil Filter:	0.6 U.S. Pints	Oil Filter:	0.6 U.S. Pints
Oil Cooler:	0.9 U.S. Pints	Oil Cooler:	0.9 U.S. Pints

The old versus the new type sumps are shown below in illustrations 1 and 2, respectively.
